Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Course of Study for United States Indian Schools The accompanying Course of Study has been prepared for use throughout the Indian school service and is to be adopted therein. It emphasizes the study of home economics and agricultural subjects, because any attempt to change the Indian population of this country from a dependent to an independent people within a reasonable length of time must give special consideration to the improvement of the Indians homes and to the development of their lands. The usual subjects of school instruction are not neglected, but they are coordinated with subjects which, if learned practically, lead directly to productive efficiency and self-support. This edition is the result of a revision of the tentative course of study which was adopted in 1915. An extended use of that course has shown that while it was right in principle some weaknesses were included. By eliminating these and extending the course to more nearly parallel the public school courses the present edition has been evolved.
