Brand New Book ***** Print on Demand *****.In this innovative study, Anna Miller challenges prevailing New Testament scholarship that has largely dismissed the democratic civic assembly--the *ekklesia*--as an institution that retained real authority in the first century CE. Using an interdisciplinary approach, she examines a range of classical and early imperial sources to demonstrate that *ekklesia* democracy continued to saturate the eastern Roman Empire, widely impacting debates over authority, gender, and speech. In the first letter to the Corinthians, she demonstrates that Paul's persuasive rhetoric is itself shaped and constrained by the democratic discourse he shares with his Corinthian audience. Miller argues that these first-century Corinthians understood their community as an authoritative democratic assembly in which leadership and citizenship cohered with the public speech and discernment open to each. This Corinthian identity illuminates struggles and debates throughout the letter, including those centered on leadership, community dynamics, and gender. Ultimately, Miller's study offers new insights into the tensions that inform Paul's letter. In turn, these insights have critical implications for the dialogue between early Judaism and Hellenism, the study of ancient politics and early Christianity, and the place of gender in ancient political discourse. This groundbreaking work of Anna Miller provides greatly needed research on the democratic roots of *ekklesia*. Miller traces a persuasive ancient discourse of democracy that emerged out of the Greek civic institution composed of the body of free citizens. Her interdisciplinary research confirms that such *ekklesia* discourse constitutes a prevalent kind of social knowledge and cultural logics, defining debates over civic power and authority in a variety of ancient contexts. . . . This is a must-read, not just for those interested in the...
