Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from International Library of Technology: A Series of Textbook for Persons Engaged in the Engineering Professions and Trades or for Those Who Desire Information Concerning Them, Fully Illustrated and Containing Numerous Practical Examples and Their Solutions, Electric Transmission, Electric Light Complete instructions regarding electric transmission, electric lighting, and the wiring of buildings for light and power are given in this volume. In the portion relating to electric transmission the various systems of transmitting electrical energy, both by direct and alternating current, are explained in the greatest detail. In Electric Lighting all the important systems of distribution are described, and special attention is given to enclosed arc lamps and their operation. Arc-lamp connections are explained more clearly than in any textbook heretofore published, and the same is true regarding arc-light switchboards. In presenting the subject of Interior Wiring the Object has been to Show how work should be done in order to be safe and in accordance with the Under writers requirements. Interior Wiring is a branch that has been sadly neglected in nearly all electrical textbooks, and the present papers are easily the best treatise that has yet appeared on the subject. This volume will be found extremely convenient for looking up wiring formulas and tables, special pains having been taken to arrange these in the most convenient form. The method of numbering the pages, cuts, articles, etc. Is such that each subject or part, when the subject is divided into two or more parts, is complete in itself hence, in order to make the index intelligible, it was necessary to give each subject or part a number This number is placed at the top of each page, on the headline, opposite...
