Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Mechanical Drawing This book is the result of years of experience in the drafting room and behind the desk. The methods pursued therein combine the best practice in this country and abroad, based on the writers intimate knowledge of German engineering education. While the book is primarily written for Engineering Colleges, with certain omissions, it furnishes an excellent textbook for High Schools, Trade Schools, Evening Drawing Classes and Home Study. The course to be covered by the Cooper Union Schools is with slight modifications roughly as follows: Day School of Technical Science: 1. Year of drawing: Chap. I. to V. incl. 2. Year of drawing: Chap. VI. (in conjunction with Textbooks on Elementary Design.) Evening Schools of General Science and Electrical Engineering: 1. Year of drawing: Chap. I. to III. B. incl. 2. Year of drawing: Chap. III. C. to VI. A. incl. The Chapters IV. and V. are curtailed to some extent in the Evening Schools. The merit claimed for this work is the systematically-arranged selection of lessons in form of drawing plates which, for the greater part, are reproductions as to size of paper and proper arrangement of the problems of the finished drawing. The problems, of course, are unfinished on the printed plate, and their specifications, given in the text, may vastly vary with every instructor, but the underlying principles of construction in each case are expressed graphically; that is, in the language of the Draftsman. And thereby the author has tried to avoid the great evil, of which most other books on Mechanical Drawing suffer, namely: big books with a whole lot of reading matter which is hardly ever read by...
