Reviews

This type of publication is every thing and helped me seeking ahead and much more. It usually fails to charge too much. It is extremely difficult to leave it before concluding, once you begin to read the book.

HISTORY IN THE ELEMENTARY SCHOOLS METHODS, COURSES OF STUDY, BIBLIOGRAPHIES (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from History in the Elementary Schools Methods, Courses of Study, Bibliographies The course of study outlined in the following pages is first of all practicable. It has been subjected to the test of teachers and supervisors in elementary schools of the country and the city, and of Normal Training Schools. It is the result of years of experience in public schools conducted under ordinary conditions. It is easily adaptable to either graded or ungraded schools. While it provides for a complete course of study in history from the first to the eighth grades inclusive, it is so arranged that it may be used in connection with any rational plan of correlation of history with other subjects, especially with industrial training, literature and geography. This is particularly true of the outlines for the first four grades. In ungraded schools and those only partially graded, doubtless the demands of the daily program render the adoption of some scheme of combining and coordinating allied subjects an actual necessity. This course provides the desired core or basis for the correlation of history, geography and literature and, in the primary grades, manual training, in a perfectly natural and interesting manner. The course has also been prepared with the view of combining several grades into single sections or classes. For example, an ungraded rural school may be arranged into a primary and a grammar grade section. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
