There are two great sets of them connected with the heart and running everywhere through the body. One set is called the arteries. They carry the blood out from the heart to every part of the body. The other set of blood vessels is called the veins. It is their work to collect the blood from all parts of the body and bring it back to the heart. Near the heart the blood vessels are very large, but through all the body there are thousands of little blood vessels, so small and so close together that you cannot rim the point of the finest needle into your flesh without breaking many of them. Violent exercise injurious to the heart. If you should run up and down stairs two or three times, or run a hundred yards at top speed, you would find your heart beating...
