WHY NOT BLOOD SACRIFICE: A BETTER WAY (PAPERBACK)

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Recent exposure of horrific practices among many in high places leaves questions that urgently require answers. Why does the blood sacrifice of infants and others occur in these modern times? What is ingrained in human nature that allows the continuance of such rituals, both literal and symbolic, as in the church-sponsored blood ritual of communion? More importantly, what are we going to do about it? Where can we look for answers and beyond, to solutions, to purging ourselves, individually and collectively, from the shame and secretiveness, while still honoring our full nature, with harm toward none? With harm toward none is the key. The Kahunas of ancient lore offer not only an answer but a solution. If we apply the basic structure of the human psyche as explored in Huna and its holistic healing methods, we may be surprised at the simplicity and completeness of the healing. Growing beyond her Christian roots and into the light of day, the author brings a lifetime of exploration into focus in this brief text, with numerous corroborating references. Because we have the gift of free will, we can be set free by the truth, once we know it. First, we need to know the driving forces behind our many failing institutions. It is only then that the truth, such as Huna offers us, can set us free.
