Nutrients for Prostate Cancer Prevention and Eradication: Natural Non-Toxic Chemotherapy for Prostate Cancer (Paperback)

By Dr Brian K Bailey

Createspace, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Not too many years ago men who had prostate cancer were castrated, had their testes surgically removed. Now, that is done chemically. Currently this is the first line treatment. This is done thinking that testosterone is the enemy. All this treatment does, is buy time. In a year or so, androgen insensitive cancer cells will take over. Poisonous chemotherapy with very expensive drugs is the next treatment. So, we go from no testosterone causing depression, lack of energy, loss of libido, muscle atrophy leading to weakness and increase risk of death for all causes to chemotherapy with its side effects. They are still treating men with high doses of estrogen turning men into women with breasts. The thinking was estrogen opposes testosterone, wrong. Unbalanced estrogen is the enemy. It also causes cardiovascular disease when unbalanced with progesterone or testosterone. Prostate cancer is the second cancer-related cause of death. Nowadays, the aim of treatments is to decrease the effects of androgens on this organ. Unfortunately, over time, patients develop an androgen-independent cancer with a fatal outcome. The main features of late stage prostate...
