

statCrunch -- Standalone Access Card (6-month access)

By Webster West

Pearson Education (US), United States, 2009. Online resource. Condition: New. Language: English . Brand New Book. StatCrunch is online statistical software that allows users to perform complex analyses, share data sets, and generate compelling reports of their data. Developed by Webster West of Texas AM University, already has more than 13,000 data sets available for students to analyze, covering almost any topic of interest. Interactive graphics help users understand statistical concepts and are available for export to enrich reports with visual representations of data. The StatCrunch statistics software is also integrated into MyStatLab (TM), enabling students to analyze and interpret data sets from the textbook.

Reviews

An incredibly amazing ebook with perfect and lucid answers. It is written in basic terms and never difficult to understand. It has been written in an exceptionally basic way and it is only right after I finished reading this ebook in which it in fact modified me, affected the way I really believe.

-- Beverly Hoppe

Extremely helpful for all classes of individuals. Better than never, though I am quite late in starting to read this one. I realized this publication from my mom and dad suggested this ebook to discover.
