THE DICTIONARY OF THE ARTS, SCIENCES AND MANUFACTURES: ILLUSTRATED WITH ELEVEN HUNDRED ENGRAVINGS (CLASSIC REPRINT) (PAPERBACK)**DOWNLOAD**

Forgotten Books, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from The Dictionary of the Arts, Sciences and Manufactures: Illustrated With Eleven Hundred Engravings The attention of the author of this Dictionary of Arts and Sciences has been directed to three objects. - The first, to explain briefly, but plainly, all the terms used in architecture, civil engineering, practical mechanics, manufacturing processes, the mathematics, the fine arts, and the experimental sciences. The second, to give the origin, properties, and application of all chemical substances; and the third, to record and describe all the apparatus and machines employed in natural philosophy; and also those numerous inventions and contrivances of a mechanical nature, which our periodicals and galleries of art abound with, but which are known comparatively to a very few persons, though often of the most essential value to the community illustrating each article with wood-cuts, wherever such could in any way whatever lead to the better understanding of the subject. It will be readily believed, that the above has been a most difficult task, involving care, patience, and assiduity, especially as the author was his own draughtsman; he trusts, however, that his readers will give him the credit of carrying out, to the utmost of his power, the original, and it is to be hoped, useful design.
