Within the self dwells a vast congruence of structure, energy, and celestial matter that propels outward and stretches into the cosmos. Nature and the totality of its principles transcend time, space, and dimensional capacity. The infinite unity that governs all creation manifests itself through the cycle of life. The Truth within the Silence is a series of poems that reaffirm the vitality of cosmic interconnectedness, which ebbs and flows throughout memory, movement, and perpetual moments of the universe. Tranquility can be attained through silence, which yields not emptiness but space. The very space that represents matter, both tangible and intangible, becomes a conduit through which energy travels. The author draws us in with a rhythmic exchange of poetic affirmations that awaken the macrocosmic energy within the silence. Love is the message delivered, and each written word reminds us that the infinite consciousness offers continual balance. Once awakened to our magnificence the clouds of doubt are erased and the ultimate truth shines through.
