HETEROTROPHIC FLAGELLATES ON BIOFILMS

VDM Verlag Dr. Müller E.K. Okt 2013, 2013. Taschenbuch. Book Condition: Neu. 220x150x6 mm. Neuware - The importance of biofilms for the self-purification of streams and the high availability of nutrients was recognised during the last decades. The knowledge about colonisation, succession, and demographic parameters of microorganisms on biofilms, especially for heterotrophic flagellates, is still limited. One important factor determining the colonisation process of microorganisms is the flow velocity. In addition, growth rate, division rate, and mortality of the microorganisms...

Reviews

Complete information for publication enthusiasts. I have go through and that i am confident that i will gonna go through once more again in the future. Its been printed in an exceptionally basic way and is particularly just following i finished reading through this book by which basically altered me, alter the way i really believe.

-- **Angela Kuhn**

An extremely great publication with perfect and lucid answers. It really is writter in straightforward phrases and never hard to understand. You can expect to like how the author write this publication.
