By Greyson Mann

Skyhorse Publishing, United States, 2017. Paperback. Condition: New. Grace Sanford (illustrator). Language: English . Brand New Book. Sky Pony has sold over 4 million books for Minecrafters. With over 100 million registered users, Minecraft is one of the most popular games worldwide, and this series will appeal to its youngest players. This is the fifth title in our Secrets of an Overworld Survivor chapter book series, following *Lost in the Jungle* and *When Lava Strikes* (both in Feb 2017), *Wolves vs. Zombies* (April 2017), and *Never Say Nether* (June 2017). Each book in the series subtly suggests important values for young readers to practice, like the importance of planning ahead and working as a team. While kids enjoy the action-packed adventures, parents and teachers will love the wholesome, teachable content on every page. The *New York Times Magazine* touted Minecraft s value as a teaching tool in their April 2017 feature article, and our books for Minecrafters are proof that the game s appeal draws children to reading and learning alike. This easy-to-read series will appeal to and educate an even younger demographic than we ve reached before. We will publish paperback, hardcover, and ebook editions simultaneously to serve both consumers and libraries.
