Del Cerro Publishing. Paperback. Book Condition: New. Paperback. 148 pages. Dimensions: 8.9in. x 5.9in. x 0.4in. It was not a planned transition; it was the result of the natural behavior of people in reacting to the circumstance of the moment, sometimes successfully, often not. The recounting of the high points of this evolution illuminates how today's technology and the practices of our political economy came into being. Starting with a discussion of just how economic growth is affected by the behavior of government, it goes on to identify and analyze the bigger bumps in the road of our continuing evolution. First, our public education system falls woefully short, particularly for lower income citizens. Education is opportunity; its failure hurts both the individual and the nation. A badly needed restructuring of the industry is discussed at some length. Second, we have too many citizens...
