Reviews

This ebook will not be easy to get started on looking at but very exciting to learn. It can be really interesting through looking at period. Its been written in an exceptionally basic way and it is merely following i finished reading this pdf in which in fact transformed me, alter the way i really believe.

Createspace Independent Publishing Platform, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.This paper explores and develops the ideas presented in -A quantum mechanical theory of gravitational interactions-. A satisfactory unification of the four forces can be achieved if we assume the electron neutrino is a point magnetic charge corresponding to the point electric charge of the electron. This is not to be confused with the idea of the classical magnetic monopole. The neutrino is assumed, however, to have a magnetic moment. This leads to the conclusion that magnetic fields are caused by the motion of mass rather than charge. The predicted value of the magnetic moment of the electron neutrino is $\mu_\nu = (1.61 \times 10^{-6}) \mu_B$ where μ_B is the classical Bohr magneton.
