Sun Xiaoyan Publisher: Science Press Publication Date: 2009 -5-1ISBN: 9787030244642 Words: 207.000 yards: 164 Edition: 1 Binding: Paperback: 16 product size and weight: Editor's Choice genetic algorithm optimization methods. co-evolutionary genetic probability of simulated biological evolution and genetic mutation mechanism The algorithm is a strong improvement of the genetic algorithm is a the proposed collaborative Darwinism based on a new class of evolutionary algorithm. The book elaborates coevolutionary genetic algorithm theory and new technologies at the same time. given the co-evolutionary genetic algorithm complex numerical functions in multimodal multi-objective optimization. the specific application of the robot the coordination path planning. neural network optimization. as well as group decision . The book is available to all tertiary institutions use as a textbook and as a reference book is also available for personnel engaged in related work. Summary coevolutionary genetic algorithm and intelligent computing method to solve complex optimization problem in recent years has been successfully applied in many fields. intelligent optimization and decision-making areas of one of the hot research direction. The book describes the principle of co-evolutionary genetic algorithm and its application. the main contents include: coevolutionary genetic algorithm entry. the coevolution population based on the tight links identified segmentation. co-evolution of the populations of the dynamic changes of the search area. and population size of the co-evolutionary genetic algorithm dynamic changes in population on behalf of individual choice. based on a local area network in parallel to achieve the synergy evolution and co-evolutionary genetic algorithm network resource allocation. as well as co-evolutionary genetic algorithm search...
