Pocket Tutor Ophthalmology (Paperback)

By Shyamanga Borooh, Mark Wright, Bal Dhillon

JP Medical Ltd, United Kingdom, 2012. Paperback. Condition: New. Language: English . Brand New Book. Titles in the Pocket Tutor series give practical guidance on subjects that medical students and foundation doctors need help with on the go . Their highly affordable price represents great value for those rotating through modular courses or working on attachment. Topics reflect information needs stemming from today s integrated undergraduate foundation courses: * Common investigations (ECG, Chest X-Ray, etc) * Clinical skills (procedures, patient examination, etc) * Important and/or complex specialties in which students receive comparatively little dedicated training (psychiatry, renal medicine) Key Points * Highly affordable price and convenient pocket size format - fits in back pocket! * Ophthalmology receives little teaching time in the medical curriculum, so students often feel ill prepared to deal with eye problems - which are invariably urgent in nature * Descriptions of common disorders enhanced by Clinical Scenarios (Patient presents with.) which help students and trainees to recognise and manage common presenting problems.
