Suddenly, SITE LOCKDOWN flashes on every single screen in GCHQ. Alpha team leader. Can you see what they re up to? No. There s a brief pause. What comes next is totally unexpected. I can t hear anything but I feel a sudden, ferocious earache, an incapacitating headache and nausea, and I crumple to the floor. In this James-Bond-meets-real-world thriller, MI5 man Lucas Norton once again finds himself caught up in a high-stakes assault when a sniper in a powerboat takes a pot-shot at his family. Could it be linked to the daring raid carried out at GCHQ, where thieves evade the world s tightest security to steal top secret ultra-high-tech equipment from under his nose? Lucas s first case (Misdirection) culminated in him, and the FBI, losing \$48m from an international heist. Now he and his crack team over at GCHQ have only a few days to figure out what the stolen tech can do and where the thieves have gone. It s a search that takes them from London s secret underground railway to a disused WW2 bunker, the FBI s Black Hawk launch bay, the US Embassy and the very heart of MI5. Can Lucas s team stop a brilliantly executed plot to hold the populations of London and New York to ransom? Credence will have you trying to outsmart the world s most advanced intelligence services - and the criminals who are one step ahead of them.
