Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Publications and Patents of the Eastern Regional Research Laboratory: January-June 1952 Construction and performance of a cylindrical cell permitting light scattering measurements to angles as low as 220 to the incident beam are described. By extrapolating such measurements to zero angle, very high molecular weights may be determined without the assumption of a particular shape for the scattering particles.
