

Siblings: The Autism Spectrum Through Our Eyes

By Jane Johnson, Anne Van Rensselaer

Jessica Kingsley Publishers. Paperback. Book Condition: new. BRAND NEW, Siblings: The Autism Spectrum Through Our Eyes, Jane Johnson, Anne Van Rensselaer, Growing up with a sibling on the autistic spectrum can be difficult, and the needs of a child with autism often overwhelm a family, leaving neurotypical children feeling overshadowed. For the first time, the 'neurotypical' siblings get to have their say. They recount the good, the bad, and the downright annoying in a way that all young people in a similar situation will immediately recognise. Young siblings of all ages candidly recount how being 'the neurotypical one' can be tiring, frustrating, and lonely, but equally rewarding, and every story is injected with wisdom gained by young people who often have to grow up a lot more quickly than their peers. This book is essential reading for children and teenagers with a sibling on the autistic spectrum, and for parents wishing to understand how autism in the family will affect their neurotypical child.

This book is definitely not simple to begin on studying but quite fun to see. I actually have read and that i am sure that i will gonna read through yet again once again in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.
