The Bering Strait Crossing: Where Continents Meets Part 1: A 21st Century Frontier Between East and West (Paperback)

By James A. Oliver

Information Architects, United Kingdom, 2006. Paperback. Condition: New. First 2006; Revised 2007 ed.. Language: English . Brand New Book ***** Print on Demand *****.The Bering Strait Crossing is the epic story of the Intercontinental Divide. The ancient waterway - when the fog clears over the Diomed Islands - is among the world's most stunning vistas. This is where the 53-mile wide strait, named for Danish explorer Vitus Bering (1681-1741), separates four continents across the Europe-Asia landmass and the Americas. Isolation, extremes of climate, and geopolitical tensions have interfaced to create the perception of a frozen limbo at the edge of the world. Yet the Bering Strait is the world's geographical crossroads - linking East with West - for nowhere else on the globe is it possible to cross the Pacific overland, between Asia and the Americas. In the modern era, several schemes have been proposed - rail, ferry, tunnel - by which to cross the strait. Since the end of the Cold War, a scheduled air service has been in place. The strait remains undefeated in terms of a terrestrial link between the USA and Russia - so far. The author uncovers a world-shaping revelation: that the Bering...
