Reviews

An exceptional ebook and also the typeface applied was intriguing to read through. I have got read and i also am sure that i am going to likely to go through yet again once more in the foreseeable future. I discovered this pdf from my dad and i advised this ebook to find out. (Dr. Raven Ledner)

LORDS OF SECRECY: THE NATIONAL SECURITY ELITE AND AMERICA S STEALTH WARFARE**DOWNLOAD**

Audible Studios on Brilliance, 2016. CD-Audio. Condition: New. Unabridged. Language: English . Brand New. Forty years ago, a majority of Americans were highly engaged in issues of war and peace. Whether to go to war or keep out of conflicts was a vital question at the heart of the country's vibrant, if fractious, democracy. But American political consciousness has drifted. In the last decade, America has gone to war in Iraq and Afghanistan, while pursuing a new kind of warfare in Yemen, Somalia, Libya, and Pakistan. National security issues have increasingly faded from the political agenda, due in part to the growth of government secrecy. In lucid and chilling detail, journalist and lawyer Scott Horton shows how secrecy has changed the way America functions. Executive decisions about war and peace are increasingly made by autonomous, self-directing, and unaccountable national security elites. Secrecy is justified as part of a bargain under which the state promises to keep the people safe from its enemies, but in fact allows excesses, mistakes, and crimes to go unchecked. Bureaucracies use secrets to conceal their mistakes and advance their power in government, invariable at the expense of the rights of the people. Never before have the American people had so little information concerning the wars waged in their name, nor has Congress exercised so little oversight over the war effort. American democracy is in deep trouble. Lords of Secrecy explores the most important national security debates of our time, including the legal and moral issues surrounding the turn to private security contractors, the sweeping surveillance methods of intelligence agencies, and the use of robotic weapons such as drones. Horton looks at the legal edifice upon which these decisions are based and discusses approaches to rolling back the flood of secrets that is engulfing America today....
