STATISTICAL INFERENCE FOR FINANCIAL ENGINEERING

Springer International Publishing Apr 2014, 2014. Taschenbuch. Condition: Neu. Neuware - This monograph provides the fundamentals of statistical inference for financial engineering and covers some selected methods suitable for analyzing financial time series data. In order to describe the actual financial data, various stochastic processes, e.g. non-Gaussian linear processes, non-linear processes, long-memory processes, locally stationary processes etc. are introduced and their optimal estimation is considered as well. This book also includes several statistical approaches, e.g., discriminant analysis, the empirical likelihood...
