

Predicciones Ecologicas (ECO-Predictions): Recopilacion De Datos (Collecting Data) (Paperback)

By Diana Noonan

Teacher Created Materials, Inc, United States, 2015. Paperback. Condition: New. Language: Spanish . Brand New Book. This engaging Spanish-translated nonfiction book tells the story of two different ecosystems -the declining fish population in the Claymount Stream and the declining number of birds in the Mainsville Woods. These stories provide readers with modeling and practice through prime examples of predicting causes, collecting data, making meaningful conclusions, and finding problem-solving solutions. Readers will develop STEM skills while building content-area literacy in mathematics, life science, and ecology. The interesting stories, vivid images, easy-to-read informational text, clear mathematical charts and diagrams, and text features such as a glossary and index, will keep readers engaged and confident that they can analyze data to solve these problems and many others!.

Reviews

An exceptional pdf and also the typeface applied was intriguing to read through. It is definitely simplified but excitement in the 50 % in the ebook. I discovered this ebook from my dad and i recommended this pdf to find out.

-- Jarod Ward

Complete information for publication enthusiasts. It is really basic but shocks inside the fifty percent of your book. I am just delighted to let you know that this is basically the finest book i have read through in my individual lifestyle and might be he best pdf for actually.
