RATIONAL MEDICAL DECISION MAKING: A CASE-BASED APPROACH

[DOWNLOAD](#)

McGraw-Hill Medical/Jaypee Brothers Medical Publishers, 2006. Softcover. Book Condition: New. First edition. Rational Medical Decision Making: A Case-Based Approach is a hands-on text that clarifies the process of evidence-based medical decision making like no other source. Following the trusted LANGE format, this portable volume is ideal for learning the fundamentals of evidence-based medical practice and skills. Whether you are a student, resident, or a clinician, here is where you`ll find all the right tools-including case studies, learning objectives, and self-assessment exercises-to take your decision making skills to the next level. Table of contents 1 ?A History Lesson? To provide a historical perspective on the development of original medical literature as we know it today. ? History of first medical papers? History of The Lancet? How and why the medical literature has grown 2 ?Searching for the Right Stuff? To provide skills in searching electronic databases and other resources for the best available evidence.? Organization of Medline? Searching Medline? Accessing and searching evidence-based medicine databases? Searching the Internet for the best available evidence 3 ?Anatomy of a Research Article? To provide an overview of the structure of most original medical research articles and to describe the process through which articles are published ? Basic structure of research articles and the purpose of each component? Principles of peer review, editorial freedom and author confidentiality? Types of research articles and journals Three 4 A Statistics Primer To provide an overview of essential descriptive & comparative statistics for practicing physicians? Basic, descriptive statistics? Normal and other distributions? Samples & populations? Principles of comparative statistics? Principles underlying all tests of significance 5 Diagnostic Reasoning To provide an overview of how doctors think about diagnosis, how diagnostic tests are developed and evaluated, and how studies about diagnostic tests should be evaluated ? Psychology of medical diagnosis?...
