Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from The Chemical Investigation of Gastric and Intestinal Diseases: By the Aid of Test Meals Modern Medicine has advanced along scientific lines, so that to-day the clinician is compelled to call Science to his aid in the investigation of disease. Just as the surgeon requires X-rays to elucidate certain problems, and bacteriological methods of investigation are imperative in the diagnosis of some diseases, so the physician, in treating diseases of the stomach and bowels, requires the aid of chemical analyses for making an accurate diagnosis. More especially is this the case in functional diseases in which there may be no physical signs, and in which the symptoms may be very misleading. The methods of investigating diseases of the stomach and bowels are very numerous, and it is impossible in a book like the present to enter at all fully into the subject. We will, therefore, confine our attention for the most part to chemical methods which we have ourselves employed for some twelve years with more or less useful results. The results summed up in this...
