

A HANDBOOK OF COMPARATIVE SOCIAL POLICY (2ND NEW EDITION)

[DOWNLOAD](#)

Edward Elgar Publishing Ltd. Paperback. Book Condition: new. BRAND NEW, A Handbook of Comparative Social Policy (2nd New edition), Patricia Kennett, The current context of social policy is one in which many of the old certainties of the past have been eroded. The predominantly inward-looking, domestic preoccupation of social policy has made way for a more integrated, international and outward approach to analysis which looks beyond the boundaries of the state. It is in this context that this Handbook brings together the work of key commentators in the field of comparative analysis in order to provide comprehensive coverage of contemporary debates and issues in cross-national social policy research. Organized around five themes, this thoroughly revised and updated second edition explores the contextual, conceptual, analytical and processual aspects of undertaking comparative social research. The contributions highlight specific areas of comparative social policy including child poverty and well-being, patterns of housing provision and housing inequalities, and social protection in East Asia as well as crime and criminology in a global context. The authors of the Handbook explore continuing and emerging themes as well as issues which are of particular relevance to understanding the contemporary social world. International in scope, this authoritative Handbook presents original cutting-edge research from leading specialists and will become an indispensable source of reference for anyone interested in comparative and international social research. It will also prove a valuable study aid for undergraduate and postgraduate students from a range of disciplines including social policy, sociology, politics, urban studies and public policy.
