OPTICAL PROPERTIES FOR PREPARED SILVER NANOCOMPOSITE

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | In this book, the preparation of Silver nanocomposite was studied. Nonlinear optical properties and optical limiting properties of silver nanocomposite were investigated. The standard chemical synthesis method was used with different weight ratio of silver. Several testing were done to study the characterization of the sample, including structure testing and optical testing. Linear refractive index and linear absorption coefficient were obtained from absorption and transmission spectra of the silver structure using UV-VIS spectrophotometer. The...

Reviews

A whole new e-book with a brand new viewpoint. It is amongst the most incredible book i actually have read. Your lifestyle period will likely be convert as soon as you complete looking over this book.

-- **Alexys Wyman**

This book will not be effortless to start on reading through but very exciting to learn. It is amongst the most remarkable book i have got go through. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Dr. Easton Collier DVM**

An exceptional publication and the typeface used was exciting to read through. It is probably the most awesome ebook i actually have study. I am delighted to inform you that this is the greatest publication i actually have go through inside my individual existence and could be he finest book for actually.
