Excerpt from Conservative Surgical Treatment of Para-and Peri-Uterine Septic Diseases A young woman having forgotten herself, and being two days past her expected menstrual time, resorted to the services of an abortionist for the destruction of a supposed pregnancy, which, however, did not exist. Follow-ing the introduction of some instrument into the uterus, she suffered for two days very intense pain, accompanied by some fever. She was not, however, confined to her bed. The desired men struation not making its appearance, at the end of six days she re turned to the man s office, and. A second instrumentation was followed in thirty-six hours by a severe chill, high fever, and excessive pelvic pain. On the sixth day of her illness I saw her in consultation, finding an in?ammatory swelling to the left of the uterus in the broad liga ments. On the seventh day, under ether, I made the posterior vagi nal buttonhole, penetrated the tissues with my left forefinger, and opened an ovarian abscess containing fully four ounces of pus. Eighteen days later this woman walked two blocks to the street...
