Createspace Independent Publishing Platform, United States, 2011. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Learners love to complain about how boring so many subjects they have to study are. Why do I have to learn this anyway It s so BOOOORING! Or, our English teacher was going on and on about grammar and I just don t get it. Yet, ask them about the latest video games or hobby they are playing and their whole mood will change as they start going on and on about how many zombies they were able to kill or how they built an amazingly fast RC car in 3 hours. Making learning fun is an art as much as it is a practice. It is a practice because it requires an innovative and effective approach to teach the learners well. It is an art because it sparks imagination and opens up creativity to make learning fun and fruitful. Simply put, this is an exercise book on English grammar. Grammar is the underlying system of the English language. You may think of grammar as the rules of English. A noun is a thing. A verb is an action. A pronoun takes the place of a noun. Adjectives modify nouns. Adverbs modify verbs. Prepositions show relationships between objects. Conjunctions connect things in a sentence.etc etc. It s important to know and use correct grammar if you plan to speak or write the English language. Using grammatically correct sentence structure is especially important if you want to appear professional in your communications with other people.
