Economic Cycles, Debt and Demographics: The Underlying Macroeconomic Forces That Will Shape the Coming Decades (Paperback)

By Carlos Alegria

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Since the 2008 crisis it seems the world has changed. We are currently living in a slow growth economic environment that is very different from the one that our parents lived in. Our parents lived through the greatest baby boom in history, that occurred after the end of the second world war. The baby boomers were like a great wave, driving the economy and social change with it. We are currently living in the wake of the demographic bust that followed. This book exposes the underlying forces that are shaping our economy, and which will continue to shape it in the future. Demographic changes and high debt levels are powerful forces that are slowing growth in developed countries. In a couple of decades these same forces will be acting on emerging markets too. Economic cycles, in particular, cycles in real estate are intimately related to private debt levels and the overall economy. Demographic changes to some extent drive real estate cycles and consequently, the long-term behaviour of the economy. The book explains: The main macroeconomic challenges the US economy will be facing,...
