

## Teaching for Creativity

Filesize: 2.89 MB

### **Reviews**

*This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It has been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, alter the way I believe.*

*(Prof. Loyce Runolfsson Jr.)*

John Catt Educational Ltd. Paperback. Book Condition: new. BRAND NEW, Teaching for Creativity, Andrew Hammond, No teacher intends to teach creativity out of their pupils; no teacher seeks to rid children of their imagination. But the constant need to demonstrate academic progress has created a learning environment non-conducive to creative thinking and creative behaviour. By focusing on key features of the learning environment, this book will help teachers to preserve children's innate creative capacities at the same time as maintaining academic standards in the classroom; it's not either/or, it's and. Practical ideas and activities are offered throughout, as well as references to the Government's Teachers' Standards. Teaching for Creativity is the second book in the Invisible INK series, in partnership with INK Education, that aims to shed light on the 'Invisible Curriculum' and the secret ingredients that really unlock a child's learning potential. Andrew Hammond is an educational consultant, trainer, conference speaker, former headteacher and author of more than 30 educational titles for major publishers.
