

## Answers to Questions Volume 4

Filesize: 8.12 MB

### ***Reviews***

*This book will not be simple to get going on reading but extremely exciting to read through. Yes, it can be play, still an interesting and amazing literature. I am very easily could possibly get a delight of reading a written book.*

*(Rene Olson)*

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1901 Excerpt: .of two metals are inversely proportional to their respective conductivities,  $r: r:: 1: 6.08$ , or  $r = 6.08 r_v$  Substituting 14 for  $r = 6.08 \times 14 = 85.12$  ohms per mile, the resistance of the iron wire. As the resistance of the conductor is proportional to its length (Art. 2292), then, by formula 406, the resistance of 1,000 feet of the iron wire is  $85.12 \times 1,000,0,0, . r = rU n = 16.1212$  ohms. Ans. 5,280 Note.--In the two cases, as the diameters of the wires are equal, their sectional areas are also equal; therefore, the sectional areas can be neglected in solving the problem. See Art. 2293. (1166) The sum of the currents in the three branches is  $7.7 + 23.9 + 15 = 46.6$  amperes. The difference of potential between the point where the branches divide and the point where they unite is by formula 411  $= C R = 46.6 \times 3.2 = 149.12$  volts. To find the resistance of each branch, consider each branch separately and apply Ohm s law; therefore (Art. 2310), The separate resistance of branch A is  $E 149.12$  The separate resistance of branch B is  $F 149 12 tL = A. = 6.2393$  ohms. Ans. The separate resistance of branch C is  $E 149.12$  (1167) From formula 430, the intensity of magneto., .  $3.192 \times a-t 3.192 \times 4,620$  motive force is  $H = j = . j--! = 1,474.704$ . Ans. A magnetic density of 1,474.704...
