

A Complete System of Harmony (Classic Reprint)

Filesize: 1.33 MB

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Ally Reichel)

A COMPLETE SYSTEM OF HARMONY (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English Brand New Book ***** Print on Demand *****.Excerpt from A Complete System of Harmony The extended and systematized treatment of the Auxiliary Chords is prompted by the conviction that a modification is sorely needed in the prevalent method of harmonic teaching. The vast majority of pupils, leaving Harmony with little or no drill except in the Fundamental Chords, plunge into Counterpoint and Fugue so ill-prepared for the requirements of these advanced studies, that their most laborious efforts produce only painfully unmusical results. At present, the pupil sees little relation between his chords of Harmony and the chord-formations of actual composition, and this is because he has not been taught how to elaborate his fundamental harmonies with auxiliary effects. The principles of Modulation have been presented in a manner that will, it is hoped, make what is the most subtle feature of composition more intelligible and attractive to the pupil. If in many text-books the true philosophy of the matter has not been misconceived, it has certainly been strangely misrepresented. Organ-point is generally treated in so superficial a manner, that it will be a surprise to some that it can be reduced to a scientific system which shows it to be amenable to the laws of Harmony, instead of being an authorized license to violate almost all the pre-established requirements of chord progression. Its treatment in this work is the first attempt, so far as the author is aware, to bring under distinct rules this effective species of composition, and to afford to the pupil a method of learning it. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical...
