Against his better judgment, he decides to take her on as his patient. Then there are the other two women--one whom the patient passionately loves and is the reason why she is contemplating suicide. As a therapeutic approach, the doctor decides to meet with both of them in his hotel suite. Then there is the third woman, a female psychiatrist who loves and tries to protect him against the other two women who both have designs on him. The story takes place during a month with the brief periodic use of drugs taken in their explorations.
