Buenos Books America, LLC, United States, 2013. Paperback. Condition: New. Cristiane Mancini (illustrator). Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Although we naturally sense all the dangers of our environment through our body and subconscious, we no longer know how to use these perceptions in order to ensure our own safety. Animals are still able to do this and this enables them to be warned and to flee before the outbreak of natural disasters. However, by learning to benefit from their dreams, humans can surpass animals in this field. The fruit of more than 20 years of research, this book explains a method that is accessible to everyone, that enables the links between the body, conscious and subconscious to be re-established, in order to receive more information on the dangers of our environment. Once communication has been re-established between the body and the subconscious, it turns out that human beings are far superior to animals and to all existing technologies in sensing all kinds of dangers, whether they be natural, human or technological. By using the technique that is explained in this book, you will learn how to retrieve information available to you in dreams, that is important for the safety of you and the people close to you. Through this you will also be able to, for example: - avoid accidental death by escaping before the outbreak of a natural disaster: earthquake, volcanic eruption, landslide, flood, storm, tidal wave, avalanche, tornado, etc.; - foil the plans of attackers, terrorists, thieves, rapists or burglars; - know, before going away, for example by boat or plane, if you are going to arrive safe and sound at your destination or if it would be better to cancel this trip because of an attack, shipwreck, accident or natural disaster; -...
