Imagine going through your normal activities as a young kid. Then one day your reality takes a dramatic turn. You get diagnosed with something that forces you to change your ENTIRE life. From living a normal everyday life, to having it flipped upside down. Mhorgan Stephens gives readers the details of how it feels living with the chronic blood disorder idiopathic thrombocytopenic purpura, known as ITP for short. This book will give readers a better understanding of the symptoms, the regular hospital visits, the treatments, the pain, and details of living with ITP everyday of your life. What the author wants readers to get most from this book is that no matter what you are faced with, know that you have to take control of your situation, and never let your situation take control of you, and you too will make it through. Like my brother Anthony Ray Allen II. Always said Remember that we re all pregnant with greatness and some of us are actually in labor. This simply means we re already headed down the right road but we have to keep pushing until greatness is birthed. Greatness doesn t mean that we won t fall short, or we won t have our flaws. It is being able to acknowledge your flaws and work to do something about them.
