Excerpt from The Social Evolution of the Argentine Republic The administration of Avellaneda continued the task of combating such tendencies by the establishment of the telegraph which would unite all these centers to each other; by the construction of railroads to facilitate communication; and by the encouragement of European immigration for purposes of settlement and in order to mix other races with that of Argentine and so modify its political idiosyncracies by more conservative standards and interests. The conquest of the Patagonian wilds, with the final subjugation of the warlike native tribes of the south, opened and ushered in an era in the argentine evolution. This occurred contemporaneously with the historic solution of the problem of federalism versus centralism, which silenced forever the old antagonism between the inhabitants of the metropolis and those of the provinces.
