BLACK MAMBA

[DOWNLOAD](#)

Alphascript Publishing. Taschenbuch. Condition: Neu. Neuware - The Black Mamba is an elapid snake found in Africa. It inhabits a wide range of locations throughout the continent, as it is found in Ethiopia, Kenya, Botswana, Uganda, Zambia, Zimbabwe, Angola, Namibia, Malawi, Mozambique, Swaziland, South Africa and the Congo. It is one of Africa's most venomous and feared snakes. The black mamba is found in areas that include open savannahs, woodlands, and rocky outcrops. It is also known for being very aggressive when threatened, and will not hesitate to strike with deadly precision. The black mamba is the longest venomous snake in Africa. It is the second longest, venomous snake in the world only to the King Cobra. The black mamba, as adults, are on average about 2.5 meters in length, but some can grow as large as 4.3 meters. The snake's body color can range from a dark olive, olive green, to a greyish brown color. Some individuals even have a light band that wraps around their body. As the black mamba ages, its skin begins to darken. The name 'black mamba' originated from the infamous ink black color of the snake's mouth. 72 pp. Englisch.
