Createspace. Paperback. Book Condition: New. This item is printed on demand. Paperback. 166 pages. Dimensions: 11.0in. x 8.5in. x 0.4in. This publication, **Command and Control for Joint Land Operations (Joint Publication 3-31)**, provides doctrine for the command and control of joint land operations by a joint force land component commander (JFLCC). It addresses considerations for forming and establishing a functional land force component with a designated JFLCC and for planning, execution, and assessment of joint force land operations across the range of military operations. It sets forth joint doctrine to govern the activities and performance of the Armed Forces of the United States in joint operations and provides the doctrinal basis for interagency coordination and for US military involvement in multinational operations. Command and control (C2) of joint land operations is fundamental to warfare. Having a land component commander (LCC) is not new to the Armed Forces of the United States. The Allies in World War II successfully employed separate joint or multinational LCC headquarters in several theaters. These land component commands ensured proper coordination with other components and freed the multinational force commander to focus on overall strategy. In the 20th century, joint and multinational operations have encompassed the full diversity of air, land, maritime, and space forces operating throughout the operational area. Advances in capabilities among all forces and the ability to communicate over great distances have made the application of military power in the 21st century more dependent on the ability of commanders to synchronize and integrate joint land operations with other components operations. The manner in which geographic combatant commanders (GCCs) organize their forces directly affects the C2, responsiveness, and versatility of joint force operations. Combatant commanders (CCDRs) organize assigned and attached forces to accomplish the mission based on the CCDRs vision and concept of operations (CONOPS)...
