Reviews

It is one of the best books. Better than ever, though I am quite late in starting to read this one. I am delighted to explain how this is the best book I have ever studied in my personal lifestyle and might be the best PDF for ever.

EPOWERMENT: ACHIEVING EMPOWERMENT IN THE E WORLD (PAPERBACK)

iUniverse, United States, 2010. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.At no time in history has the corporate world been more ready for achieving empowerment within the workplace. The corporate world has changed, and leaders need to adjust. In EPowerment, author Dr. Izzy Justice explores empowerment in the context of the changing world and provides a powerful and simple roadmap to achieving empowerment. A collage of researched data, case studies, and interviews from more than forty organizations and leaders from all over the world, EPowerment explores why the present generations are more capable of reaching their potential than any other in history. It introduces the new business term EPowerment-an amalgam of empowerment, high emotional intelligence (EQ), and harnessing the power of the E World. It underscores how collective human knowledge is becoming easier to access and details how it will become freely available. EPowerment shows how, in this decade, managers or leaders need not reinvent the wheel, duplicate mistakes, or not leverage lessons learned. Empowerment should be the top priority of all organizations because managers can access new people, new communities of people, and infinite resources of knowledge to make better decisions-the centerpiece of high performance-in truly unprecedented ways.
