ELEMENTARY TECHNIQUE IN HISTOLOGY AND BACTERIOLOGY

To get **Elementary Technique in Histology and Bacteriology** eBook, you should refer to the hyperlink beneath and save the ebook or gain access to additional information which might be highly relevant to ELEMENTARY TECHNIQUE IN HISTOLOGY AND BACTERIOLOGY ebook.

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 42 pages. Original publisher: Reston, Va. : U. S. Dept. of the Interior, U. S. Geological Survey, 2003 OCLC Number: (OCoLC)52397737 Subject: Natural gas -- Geology -- Gulf Coast (U. S.). Excerpt: . . . 10 Geologic Studies of Basin-Centered Gas Systems Louisiana, and Mississippi are structural or combination traps tions of the origins of these smaller structures have included associated with deformed Louann Salt. Salt structures range salt deformation and small igneous intrusions, as summarized from small, low-relief salt pillows to large, piercement domes by Kisters and others (1989). Because the Louann Salt is thin (McGowen and Harris, 1984; Kisters and others, 1989). across the Sabine uplift, Kisters and others (1989) suggested The Sabine uplift (g. 3) is a broad, low-relief, basement-that most of the smaller structures across the Sabine uplift cored arch separating the East Texas and Northern Louisiana developed in association with igneous activity. Salt Basins. With vertical relief of 2, 000 ft, the Sabine uplift 2 has a closed area exceeding 2, 500 mi (Kisters and others, 1989). Isopach data across the uplift indicate that it was a posi-Travis Peak Formation Stratigraphy tive feature during deposition of Louann Salt in the Jurassic but that main uplift occurred in late, mid-Cretaceous (101 to 98 Ma) and early Tertiary time (58 to 46 Ma) (Laubach and The Travis Peak Formation is not divided formally into Jackson, 1990; Jackson and Laubach, 1991). As a high area members. However, Saucier (1985) and Saucier and others during the past 60 m. y. , the Sabine uplift has been a focal area (1985) distinguished three separate stratigraphic intervals for...
