DIFFRACTION RADIATION FROM RELATIVISTIC PARTICLES

Springer-Verlag Gmbh Okt 2010, 2010. Buch. Condition: Neu. Neuware - This book deals with diffraction radiation, which implies the boundary problems of electromagnetic radiation theory. Diffraction radiation is generated when a charged particle moves near a target edge at a distance (-Lorentz factor, - wave length). Diffraction radiation of non-relativistic particles is widely used to design intense emitters in the cm wavelength range. Diffraction radiation from relativistic charged particles is important for noninvasive beam diagnostics and design of...

Reviews

A top quality publication along with the font utilized was exciting to learn. It can be full of wisdom and knowledge Your way of life span will be transform when you comprehensive reading this book.

-- Sherwood Kshlerin IV

This pdf may be worth a read, and superior to other. It can be rally fascinating through reading period. I am pleased to explain how this is the greatest publication i have read through within my very own life and could be he best ebook for actually.

-- Prof. Brandyn Huel

These kinds of publication is the ideal pdf offered. It generally is not going to expense too much. I am just delighted to let you know that this is actually the very best book i have go through inside my very own life and might be he finest ebook for ever.

-- Mabelle Schoen
