

Psycholinguistics: Introduction and Applications (2nd New edition)

By Lise Menn, Nina F. Dronkers

Plural Publishing Inc. Paperback. Book Condition: new. BRAND NEW, Psycholinguistics: Introduction and Applications (2nd New edition), Lise Menn, Nina F. Dronkers, Psycholinguistics: Introduction and Applications, Second Edition is the first textbook in psycholinguistics created for working language professionals and students in speech-language pathology and language education, as well as for students in psychology and linguistics. It provides a clear, lively introduction to research and ideas about how human brains process language in speaking, understanding, and reading. Within a unifying framework of the constant interplay of bottom-up (sensory) and top-down (knowledge-based) processing across all language uses and modalities, it is an integrated, self-contained, fully updated account of psycholinguistics and its clinical and pedagogical applications. In this second edition, author Lise Menn is joined by leading brain researcher and aphasiologist, Nina Dronkers. The significantly revised brain chapter contains current findings on brain structure and function, including the roles of newly-delineated fiber tracts and language areas outside Broca's and Wernicke's areas. Five core chapters (language description, brain structure and function, early and later stages of speech production, experimental psycholinguistics) form the foundation for chapters presenting classical and recent research on aphasia, first language development, reading, and second language learning. A final chapter demonstrates how...
