

Value in Health Care: Accounting for Cost, Quality, Safety, Outcomes, and Innovation: Workshop Summary

Filesize: 8.14 MB

Reviews

The most effective pdf i ever read through. I am quite late in start reading this one, but better then never. Its been developed in an exceedingly simple way in fact it is only soon after i finished reading through this pdf by which in fact altered me, modify the way i think.

VALUE IN HEALTH CARE: ACCOUNTING FOR COST, QUALITY, SAFETY, OUTCOMES, AND INNOVATION: WORKSHOP SUMMARY

DOWNLOAD

National Academies Press. Paperback. Book Condition: new. BRAND NEW, Value in Health Care: Accounting for Cost, Quality, Safety, Outcomes, and Innovation: Workshop Summary, Pierre L. Young, LeighAnne Olsen, J. Michael McGinnis, Roundtable on Evidence-Based Medicine, Roundtable on Value & Science-Driven Health Care, The United States has the highest per capita spending on health care of any industrialized nation. Yet despite the unprecedented levels of spending, harmful medical errors abound, uncoordinated care continues to frustrate patients and providers, and U.S. healthcare costs continue to increase. The growing ranks of the uninsured, an aging population with a higher prevalence of chronic diseases, and many patients with multiple conditions together constitute more complicating factors in the trend to higher costs of care. A variety of strategies are beginning to be employed throughout the health system to address the central issue of value, with the goal of improving the net ratio of benefits obtained per dollar spent on health care. However, despite the obvious need, no single agreed-upon measure of value or comprehensive, coordinated systemwide approach to assess and improve the value of health care exists. Without this definition and approach, the path to achieving greater value will be characterized by encumbrance rather than progress. To address the issues central to defining, measuring, and improving value in health care, the Institute of Medicine convened a workshop to assemble prominent authorities on healthcare value and leaders of the patient, payer, provider, employer, manufacturer, government, health policy, economics, technology assessment, informatics, health services research, and health professions communities. The workshop, summarized in this volume, facilitated a discussion of stakeholder perspectives on measuring and improving value in health care, identifying the key barriers and outlining the opportunities for next steps.
