By Zhisheng (Edward) Wen

Channel View Publications Ltd, United Kingdom, 2016. Paperback. Condition: New. Language: English . Brand New Book. This book introduces an approach to understanding and measuring working memory components and functions in second language learning, processing and development. An innovative theoretical model is also presented, which illuminates research studies investigating the distinctive roles of phonological and executive working memory as they relate to specific L2 learning domains, skills and processes.
