Its been designed in an exceedingly simple way and is particularly merely after i finished reading this publication by which really modified me, modify the way i think.

Random House USA Inc, United States, 2009. Paperback. Condition: New. Language: English . Brand New Book. In this unprecedented critique, Bernard-Henri Levy revisits his political roots, scrutinizes the totalitarianisms of the past as well as those on the horizon, and argues powerfully for a new political and moral vision for our times. Are human rights Western or universal? Does anti-Semitism have a future, and, if so, what will it look like? And how is it that progressives themselves-those who in the past defended individual rights and fought fascism-have now become the breeding ground for new kinds of dangerous attitudes: an unthinking loathing of Israel; an obsessive anti-Americanism; an idea of tolerance that, in its justification of Islamic fanaticism, for example, could become the cemetery of democracies ; and an indifference, masked by relativism, to the greatest human tragedies facing the world today? At a time of ideological and political transition in America, Left in Dark Times articulates the threats we all face-in many cases without our even being aware of it-and offers a powerful new vision for progressives everywhere.
