# CONDITION MONITORING OF INDUCTION MOTORS

LAP Lambert Acad. Publ. Jul 2010, 2010. Taschenbuch. Book Condition: Neu. 220x150x5 mm. This item is printed on demand - Print on Demand Neuware - Induction motors are widely used in present day industries, on account of its ruggedness, low cost and easy speed control. Condition monitoring of induction motors - the process by which certain parameters are continuously observed and analyzed for early fault detection, has become a vital part of machine maintenance. In this work, Artificial Neural Networks (ANNs) have been used for condition monitoring of 3-phase...

## Reviews

*This publication can be well worth a study, and far better than other. Better than never, though I am quite late in starting reading this one. It has been printed in an exceedingly simple way and it is only soon after I finished reading through this book in which I really transformed me, altering the way in my opinion.*

-- **Miss Alisa Toy**

*This is the very best ebook I have got to study until now. This is for those who state there had not been a worth reading. You can expect to like the way the writer wrote this book.*

-- **Jeffrey Ritchie**
