Excerpt: .By a certain manipulation of figures these profits are made to appear to be earned upon gross sales and earnings amounting to \$757,000,000, which would indicate a profit of about 27 per cent on the cost price. But the percentage of profit was much greater than 27 per cent, probably twice that amount, because the gross sales given in the report are admitted to include sales made between subsidiary companies. The report does not state the amount of genuine gross sales--that is, between the corporation and the outside world--but from common knowledge as to the average market price of its output of about 10,000,000 tons it may be safely estimated that the gross sales were not more than from \$460,000,000 to \$500,000,000, which would indicate a profit of about 54 per cent, or upward of 50 per cent on the cost price. As indicating...
