

Three-dimensional laser remote sensing data analysis and feature extraction(Chinese Edition)

Filesize: 8.49 MB

Reviews

I actually started out reading this article publication. It is loaded with knowledge and wisdom Your way of life span is going to be transform as soon as you total reading this article pdf.

(Mrs. Felicia Windler)

THREE-DIMENSIONAL LASER REMOTE SENSING DATA ANALYSIS AND FEATURE EXTRACTION(CHINESE EDITION)

DOWNLOAD

To read **Three-dimensional laser remote sensing data analysis and feature extraction(Chinese Edition)** PDF, please click the hyperlink listed below and save the document or have access to additional information that are relevant to THREE-DIMENSIONAL LASER REMOTE SENSING DATA ANALYSIS AND FEATURE EXTRACTION(CHINESE EDITION) book.

paperback. Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment.Paperback. Pub Date: Unknown Publisher: Science Press List Price: 40.00 yuan Author: Publisher: Science Press ISBN: 9.787.030.259.233 Yema: Revision: Binding: Folio: Published :2010-1-1 Printing time: the number of words: commodity identification: 20.758.050 the Profile laser scanning ranging technology is a rapid direct access to the technology of the terrain surface model. This book brings together the major achievements of the National Natural Science Foundation of China (40501061) and the Shanghai Municipal Education Commission research innovation project (10ZZ25). First outlined the development of remote sensing. LIDAR research direction and content; then details the principle of terrestrial laser scanning. summarizes the indicators of the existing terrestrial laser scanner calibration methods and error model; processing algorithms are given in three-dimensional modeling. feature line extraction and data compression; inside and outside the industry for the airborne laser scanning data processing flow. the airborne laser scanning positioning model and error propagation model is derived in detail; in the rough error detection. data classification. and edge feature extraction and data compression. respectively. given the model and algorithm; final integration of point cloud data and multi-spectral image analysis. given the integration of data classification. 3D feature extraction. water extraction. the extraction method of the coastline. The book is available in laser scanning and remote sensing data processing. reading researchers and teachers and students of higher education institutions. reference is also available for the scientific and technical personnel engaged in mapping and geographic information systems. About the author Contents Preface Chapter 1 Introduction 1.1 1.2.1 Laser scanning of the development of the 1.1.2 new technology of domestic and foreign remote sensing 1.1.3 Research photogrammetry 1.2 laser scanning ranging technology development ranging technology development of remote sensing 1.1.1 remote...
